Robert Chvátal is re-elected as a member of the Eurojackpot Executive Committee

SAZKA Group is very proud to share that our CEO, Robert Chvátal, who also serves as Executive Chairman of SAZKA Czech, has been re-elected as a member of the Eurojackpot Executive Committee until 2024. Robert will enter his 7th year and third term as part of this prestigious 6-person committee.

The Eurojackpot is a transnational European lottery. It was introduced in Europe on 23rd March 2012 with seven countries participating. This has rapidly grown to 18 countries, making it the largest European lottery in terms of audience, with a significant catchment area of over 300 million people.

As a leading lottery and gaming company, we at SAZKA Group pride ourselves in being active and forward-thinking. We are continuously and proactively shaping the future strategy of lotteries by striving for exciting, innovative and safe improvements to the game. We continue to believe that multi-jurisdiction games are an important part of that future as they pool the forces of individual countries, allowing customers to participate in high jackpot games, with a chance to win genuinely life-changing amounts.

We congratulate Robert on this fantastic achievement and look forward to many exciting future developments by the Eurojackpot lottery.

About SAZKA Group

We are one of the largest pan-European lottery operators. Our businesses operate lotteries in all the major continental European countries where lotteries are privately operated, including the Czech Republic, Greece, Austria and Italy, and in Cyprus. Our businesses focus on the lottery segment, including numerical lotteries (draw-based games) and instant lotteries (scratch cards), and also provide complementary products, including sports-betting and digital-only games. We sell our products both through various retail networks and through digital platforms. Our lottery businesses are members of the World Lottery Association and the European Lottery Association and operate in accordance with their codes of practice.
